

# What is the ExamBank **NOGGIN HOGGIN'** Challenge?

The Noggin Hoggin' Challenge is ExamBank's latest brainchild. It is a multi day, elimination-style challenge designed for students across Canada.

The mind bending puzzles are developed by educators as a fun way to integrate technology and inquiry-based learning into the daily lives of students. The question style is multi-disciplinary, meaning that it integrates different subject areas and skills. Students will essentially be engaged in an online treasure hunt, learning to identify and consult reputable sources to solve a problem.

These online challenges consist of a series of six puzzles, each of which must be correctly solved in order to qualify for the next. It is free to play, however in order to submit answers and compete for prizes, a user must have registered on the site and be a verifiable student attending a Kindergarten to Grade 12 school in Canada.

Although students must register individually, teachers may choose to work on some of the weekday puzzles with their class. Students are also encouraged to engage their families and friends in these challenges.

What if you could go  
on a treasure hunt  
without ever leaving  
your seat...

...exploring the four  
corners of the Earth  
and the far reaches  
of the universe relying  
on your wits alone?

What if there were  
hundreds of prizes to  
be won and it was all  
free...

...WOULD YOU  
BE GAME?

## Game Play Summary

The dates of upcoming challenges are available online. Register today for the next challenge!

A challenge officially begins when the first question is released at the beginning of the week. Participants have until the end of the day to submit their answer. Those who are correct continue forward to work on the next day's puzzle, and so on until the last day.

The final problem, released mid-day, is time-sensitive. The remaining competitors are ranked by the order in which they submit correct answers. There will be grand prizes awarded to the top three competitors, as well as numerous secondary prizes.

Active questions are only viewable to registered players, but as each question expires, the problem and its correct solution will become available to everyone.

Think **you**  
have what  
it takes?
